

# Signature Series Aluminium Z Flashing

The specially designed Aluminium Z Flashing offers effortless installation, while delivering a more refined, polished appearance.

## Designed for easier installation

- Includes fastener positioning grooves to ensure straight lines and minimal slippage when drilling
- Lightweight, easy to handle allows for simple installation on site
- Colour matched to the pearl white ceiling colour, and Two Part Receiver Channel to deliver a sleek modern finish
- Integrates with the Versiclad Signature range of premium accessories

## Quality assured

- Made from 2mm thick aluminium to minimise buckling and deformation around rivets
- Suitable for use in coastal regions
- Fire engineer approved for use in bushfire areas up to BAL-40
